

CORTE Press Release n°7 – 2012

The Launch of the new CORTE Website

11 October 2012

CORTE is proud to announce the launch of its new website: www.corte.be. The website reflects CORTE's evolution, both in terms of membership growth and activities. The website presents itself as a reference Transport Portal based on the three CORTE pillars: Road Transport, Road Safety and Road Security. It provides expert information (international & EU road transport, safety and security policies and legislation) and presents in detail all CORTE activities. It offers to CORTE Members access to its publications and services.

As announced during the CORTE Annual General Assembly on 27 June 2012 in Brussels, CORTE was on its way to bringing about a new website. Recent years have seen a great development of CORTE both with regards to its activities and its members, calling for a reshape of its website: CORTE activities have grown to encompass issues from the whole road transport sector (Road Transport, Safety & Security) and CORTE is now composed of 83 Members (53 national authorities, 16 Transport Associations and 14 Observers from the road industry). This evolution is reflected in the new CORTE website. It comes as a strong addition to the general objective of our organisation which is to encourage, promote and assist the development and implementation of policies for Road Transport, Road Safety and Road Security in Europe and at international level.

The new website aims at becoming a reference Transport Portal by means of serving expert access to the three transport pillars, as well as a tool for CORTE Members. The website is built so as to be accessible and user friendly for CORTE Members and visitors. CORTE Members will be able to access all official CORTE documents (Factsheets, Working Group documents, Road Transport Law Magazine, Press releases, Newsletters, etc), as well as access the CORTE Helpdesk that replaces the previous Helpdesks dedicated to road transport social legislation. CORTE Members will receive their login and password to access all CORTE publications and documents in the coming days.

We truly hope that you will find the website useful.

CORTE is the Confederation of Organisations in Road Transport Enforcement. CORTE gathers and coordinates expertise on road transport, road safety and road security at European and international level, ensuring that the voice of its members is heard. CORTE supports the development of harmonized implementation of road legislation and harmonized best practices enforcement methodologies. The Confederation brings together three categories of members: Full members (National Authorities), Associate Members (Associations) and Observers (Industry).
